

Name of Plan: **MURDERERS CREEK CRMP**

LIST OF MAJOR PROBLEMS - ISSUES OR CONCERN

Water Distribution - Livestock

Water Quantity and Quality

Public Access

Wildhorses

Vegetative Diversity - Ecological Cond.

1. Annual grasses - grow perennials
2. Noxious plants
3. Juniper & shrub component

Forest Health

Riparian Condition - Anadromous Habitat

Inability to make decisions on Wilderness S.A.

Pasture Size & Fences

Grazing Management

Road Management

T & E plant and animal (Sensitives)

Fuel Loading on forested lands

Recreation Management

Public Awareness

Lack of monitoring

Watershed Health

Wild & Scenic River

Visual

Funding

Cultural Resources

Predation

Water Diversions - passage, screens
